

FOOT ANCHOR SYSTEMS

WINDSPEC CURTAIN WALL SERIES

FEATURES

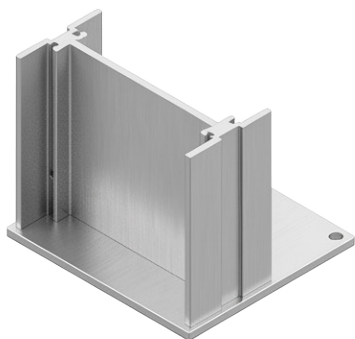

- Engineered for fast, controlled placement.
- Allows movement to accommodate real-world installation conditions.
- Adaptable design supports a faster, more efficient workflow on site.

BENEFITS

- Accelerates installation and helps reduce time on site.
- Provides installation flexibility with fewer adjustments.
- Supports controlled positioning and secure final fastening.
- Engineered to manage building deflection and on-site movement without compromising controlled placement.

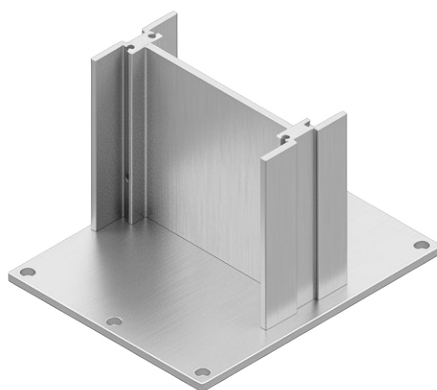

Compatible with Windspec Curtain Wall Series:

- 5500 HTP
- 5500
- 5400 HTP
- 5400
